Sedum Sunsparkler® Lime Twister (P)

Adonis

Sedum Sunsparkler® Lime Twister (P)

Leontopodium May Snow

Saxifraga Alpino Early Carnival

Phlox Spring® Blue
Alpines

Traditionally used for rock garden planting, modern newer varieties now offer an ideal accompaniment to container planting for impulse sales. They are an ideal choice for any dry locations, drought tolerant and low maintenance. These selections can provide a blaze of colour even in the driest of locations.

Check out our Phlox Spring series from our partners Dummen Orange, a rich, colourful addition to early spring flowering pot sales.
**Arabis**
Also known as Alpine Wall Cress. Plants form a low mounding cushion of variegated leaves with small white flowers throughout spring. Drought tolerant once established.

**Artemisia**
Attractive deeply cut ferny leaves that remain silver in colour throughout the year. Forms a low, mounded clump of very finely divided silver foliage, with insignificant yellow flowers that appear in mid-summer.

**Aubrieta**
Forming a low cushion of evergreen leaves which are covered with masses of flowers for many weeks from mid spring. The Axcent series are cutting raised, bred for a tight compact habit and rich uniform flowering making them exceptional flowering pot plants for early spring.

**Campanula**
Bellflowers are among the most popular perennials. These dwarf selections with compact, spreading habits are ideal for rock gardens or growing in containers. Familiar blue bell shaped flowers from late spring into summer.
Delosperma

Unique, needle-like, sparkling and vibrant coloured petals smother the fleshy green foliage during summer months. These hardy Ice plants provide a carpet of colour in hot and dry areas of the garden. Their compact habit make them ideal for 10.5cm to 1ltr flowering pot sales.
Delosperma

Alpines
Big, bold and bright daisy-like blooms. This vigorous series really packs a punch to provide the WOW factor at point of sale. Their robust, spreading growth makes them very versatile around the garden, suitable for both garden borders as well as patio containers and even hanging baskets. Mix and match colours in pots and baskets for a vibrant splash of colour.

**Sagina**

Tiny white flowers appear in spring on this compact and low growing moss which is mainly grown for its lush foliage. Soft feel and appearance. Can take light foot traffic.

**Saxifraga**

The Alpino series is one of the earliest flowering mossy Saxifrage. Very uniform habit, light green foliage and masses of upfacing, cup-shaped flowers.
The creeping selections of Stonecrop are excellent groundcover plants, providing wonderful texture and form. The unique Sunsparkler® series has tremendous compact, free branching habits and decorative foliage, smothered with trusses of pink flowers in late summer.
Sedum, Sempervivum

Among the easiest plants to grow, Hens and Chicks tolerate heat, drought and neglect with style. Forming a low cushion or carpet of fleshy leaves, tiny new plants appearing in a circle around the mother in the centre. Flower spikes appear mid summer.
Alpine forms of the common herb Thyme. Hardy and robust for use in alpine gardens and rockeries.

**Thymus**

Related to the garden pansy these cutting raised varieties are more tolerant of summer heat and harder than their large flowered cousins.

**Viola**

**Thymus**

Alpine forms of the common herb Thyme. Hardy and robust for use in alpine gardens and rockeries.

**Viola**

Related to the garden pansy these cutting raised varieties are more tolerant of summer heat and harder than their large flowered cousins.
