Shrubs

Weigela florida Black & White (P)

Clematis Kokonoe

Nandina Obsessed (P)

Hydrangea Forever Pink (P)
Shrubs

These woody, versatile plants offer an ideal background for any garden border planting.

Adding both structure and a framework for any planting scheme, shrubs continue to be the backbone to garden centre and nursery sales. Newer introductions like Abelia Radiance and Nandina Obsessed are so versatile they complement any sales activities across the sector.

95% of all 9cm liners are produced at our New Place Nurseries location, providing proven, reliable quality and excellent value.

Our entire shrub range is backed up with our new large, premium labels.
Abelia grandiflora Gold Jewel (P)
An exclusive and exciting Newey introduction originating from Hawksridge Farm in North Carolina. A neat, compact and mounding shrub with beautiful pure gold foliage which becomes a deeper copper colour with age and through the winter. Soft pink-white trumpet shaped flowers from July to October. Semi-evergreen.

Full Sun to Part Shade
Height: 90cm
Spread: 90cm
Flowering Time: July to October
-10°C
Abelia grandiflora

A beautiful new medium sized shrub. Attractive pink, green and white variegated foliage becoming rose-pink in the autumn. Soft pink flowers from July to October. Semi-evergreen.

Abelia grandiflora

A neat, compact and mounding shrub with pure gold foliage which becomes a deeper copper colour with age and through the winter. Soft pink-white trumpet shaped flowers. Semi-evergreen.

Abelia grandiflora

Silvery-green and creamy-white foliage held on bright red stems. Small white trumpet-shaped, fragrant flowers cover the plant in late summer. Semi-evergreen.

Abutilon megapotamicum

A small to medium sized shrub, best suited to a warm wall. Large green leaves with pendulous flowers which are made up of a red calyx and yellow petals. Deciduous.

Anisodontea capensis

An upright shrub with mid-green, deeply lobed leaves and pink flowers from summer. Deciduous.

Anisodontea

A compact, upright shrub with triangular mid-green leaves. From summer to autumn it is covered in large, veined, purplish-pink trumpet shaped flowers. Semi-evergreen.
Anisodontea Elegans Princess (P)

A compact, upright shrub with triangular mid-green leaves. From summer to autumn it is covered in large, veined, purplish-pink trumpet shaped flowers. Semi-evergreen.

- **Full Sun to Moderate Part Shade**
- **Height:** 75cm
- **Spread:** 80cm
- **Flowering Time:** July to October
- **Temperature:** -5°C
**Arbutus**

**Arbutus unedo**

A large shrub with white pearl-like flowers and round red fruit which are produced at the same time in late autumn. Suitable for coastal areas. Evergreen.

**Aucuba**

**Aucuba japonica**

A compact growing variety with golden new growth deepening to dark green leaves which are boldly blotched with gold. The female form will produce red berries if planted near a male variety. Evergreen.

**Aucuba japonica**

Dark green leaves which are heavily spotted and splashed with golden-yellow. A female form. Evergreen.

**Aucuba japonica**

A compact growing variety with golden new growth deepening to dark green leaves which are boldly blotched with gold. The female form will produce red berries if planted near a male variety. Evergreen.

**Aucuba japonica**

A compact growing variety of ‘Crotonifolia’, with deep-green leaves that are speckled gold. A male form. Evergreen.

**Aucuba japonica**

A large shrub with white pearl-like flowers and round red fruit which are produced at the same time in late autumn. Suitable for coastal areas. Evergreen.

**Aucuba japonica**

A compact growing variety with golden new growth deepening to dark green leaves which are boldly blotched with gold. The female form will produce red berries if planted near a male variety. Evergreen.

**Aucuba japonica**

A compact growing variety with golden new growth deepening to dark green leaves which are boldly blotched with gold. The female form will produce red berries if planted near a male variety. Evergreen.

**Aucuba japonica**

A compact growing variety with golden new growth deepening to dark green leaves which are boldly blotched with gold. The female form will produce red berries if planted near a male variety. Evergreen.

**Azalea**

**Azalea ENCORE**

Encore Azaleas are repeat flowering, blooming both in spring and late summer. Dark green foliage with medium pink semi-double flowers. Evergreen.

**Azalea ENCORE**

Encore Azaleas are repeat flowering, blooming both in spring and late summer. Dark green foliage with pink flowers. Evergreen.

**Azalea ENCORE**

Encore Azaleas are repeat flowering, blooming both in spring and late summer. Dense green foliage with large single dark pink flowers. Evergreen.

**Berberis thunbergii**

*Maria (P)*

A neat compact plant with bright yellow foliage and reddish tips to the stems. Deciduous.

*Orange Rocket (P)*

An upright form with large oval orange-red leaves. Deciduous.

*Pink Queen*

Reddish leaves that are heavily flecked with grey and white. Deciduous.

*Red Chief*

Bright-red stems with narrow, deep red-purple leaves. Deciduous.

*Red Pillar*

An upright form with reddish-purple leaves that have excellent autumn colour. Deciduous.

*Rose Glow*

Red-purple leaves that are mottled silver-pink and bright rose, later becoming purple. Deciduous.

*Starburst (P)*

Early foliage is pale green before becoming a mottled creamy-white. From July onwards the leaves turn a mottled pink colour becoming deep crimson through late summer and into autumn. Deciduous.

*Superba*

Large purple-red leaves that turn crimson in autumn. Yellow flowers in the spring. Deciduous.

*Superba*

Small linear, spine-tipped dark green leaves with yellow flowers in late spring. Evergreen.
**Brachyglottis**

**Brachyglottis**

**Drysdale (Senecio)**

Similar to ‘Sunshine’ but has a wavy silver edge to the leaves. Evergreen.

**Sunshine (Senecio)**

White-hairy leaves that become dark green on upper side with yellow flowers in summer & autumn. Evergreen.

**Brachyglottis**

**Silver Dormouse (P)**

A compact growing form (up to 90cm) with silvery-grey leaves that are intensely silver below. Clusters of golden-yellow daisy like flowers in spring / summer. Ideal for borders, patios and tubs. Evergreen.

**Brachyglottis**

**Silver Dormouse (P)**

Silver Dormouse (P)

**Brachyglottis**

**Silver Anniversary (P)**

An outstanding plant with lance-shaped silvery, downy foliage and white, sweetly scented flowers with yellow eyes. Flowers in August through to autumn. Semi-Evergreen.

**Brachyglottis**

**Silver Anniversary (P)**

Silver Anniversary (P)

**Buddleja**

**Buddleja**

**Lochinich**

Lance-shaped, white hairy, mid-green leaves with fragrant, orange-eyed, violet-blue flowers. Deciduous.

**Buddleja alternifolia**

Alternate, long, narrow, dark-green leaves with fragrant lilac flowers during the summer. Deciduous.

**Buddleja alternifolia**

**Unique (P)**

Compact and extremely long flowering with fragrant lilac flowers appearing in abundance from early summer to autumn. Semi-evergreen.

**Buddleja BUZZ**

**Candy Pink (P)**

A compact variety with candy pink flowers, ideal for container growing and small gardens. Deciduous.

**Buddleja BUZZ**

**Hot Raspberry (P)**

A compact variety with bright, hot raspberry-pink flowers throughout the summer. Ideal for container growing and small gardens. Deciduous.
**Buddleja BUZZ**

**Indigo (P)**
A compact variety with indigo flowers for container growing and small gardens. Deciduous.

**Ivory (P)**
A compact variety with ivory-cream flowers, ideal for container growing and small gardens. Deciduous.

**Lavender (P)**
A compact variety with violet-lilac flowers, ideal for container growing and small gardens. Deciduous.

**Magenta (P)**
A compact variety with purple-magenta flowers, ideal for container growing and small gardens. Deciduous.

**Sky Blue (P)**
A compact variety with sky-blue flowers, ideal for container growing and small gardens. Deciduous.

**Velvet (P)**
A compact variety with velvet-magenta flowers, ideal for container growing and small gardens. Deciduous.

**Buddleja davidii**

**Adonis Blue (P)**
A compact variety with fragrant spikes of blue flowers and greyish-green leaves. Deciduous.

**Black Knight**
Lance-shaped green leaves with dark purple-blue flowers from summer to autumn. Deciduous.

**Empire Blue**
Lance-shaped green leaves with violet-blue flowers with orange eyes from summer to autumn. Deciduous.

Shrubs

**Buddleja**

*Buddleja x weyeriana*

A vigorous variety with lance shaped green leaves with rich golden-orange flowers from summer to autumn. Deciduous.

**Callicarpa**

*Callicarpa bodinieri*

Dark green leaves that are bronze-purple when young, pale pink flowers in summer followed by masses of dark violet berries in the autumn, which give good effect when the plant has defoliated. Deciduous.

**Callistemon**

*Callistemon laevis*

Known as the Bottlebrush. Grey-green lanceolate leaves on graceful arching branches. Brilliant scarlet flowers in mid to late summer. Hardy in coastal and milder regions in the UK. Evergreen.

**Camellia**

*Camellia japonica*

Glossy green leaves with large, blood red semi-double flowers with yellow stamens. Evergreen.

Caryopteris

Caryopteris

Pink Perfection (P)

A hardy upright pink-flowered shrub with light green foliage. Numerous light pink flowers are held in whorls around the erect stems from August onwards. Deciduous.
### Caryopteris

#### Caryopteris

- **Stephi (P)**
  - A compact, hardy, pink-flowered shrub. Dense bushy habit with multiple side shoots that from August onwards are covered in rich pink flower buds that open to lilac flowers. Deciduous.

- **Sunshine Blue**
  - Bright gold foliage with amethyst blue flowers in August. An upright bushy habit. A sport of Caryopteris incana, so harder than other golden forms of clandonensis. Deciduous.

- **Dark Knight**
  - Ovate, lance-shaped silvery-grey leaves with very dark blue flowers in late summer. Deciduous.

#### Caryopteris incana

- **Stephi (P)**
  - A compact, hardy, pink-flowered shrub. Dense bushy habit with multiple side shoots that from August onwards are covered in rich pink flower buds that open to lilac flowers. Deciduous.

#### Caryopteris x clandonensis

- **Stephi (P)**
  - A compact, hardy, pink-flowered shrub. Dense bushy habit with multiple side shoots that from August onwards are covered in rich pink flower buds that open to lilac flowers. Deciduous.

**Ceanothus**

**Autumnal Blue**
- Broadly ovate, glossy green leaves with large panicles of rich blue flowers formed abundantly during late summer and early autumn. Evergreen.

**Blue Mound**
- A mound-forming shrub with alternate, oblong, very finely toothed, glossy, dark green leaves up to 3cm long. In late spring it produces dark blue flowers in large lateral cymes. Evergreen.

**Burkwoodii**
- A medium sized shrub with a dense compact habit and glossy green leaves with dark blue flowers formed throughout summer. Evergreen.

**Concha**
- A dense shrub with arching branches and alternate, oblong-elliptic, finely toothed, dark green leaves up to 5cm long. In late spring reddish-purple buds open to dark blue flowers. Evergreen.

**Dark Star**
- A medium sized spreading shrub with dark green ovate leaves and clusters of blue-purple flowers in late spring. Evergreen.

**Cool Blue (P)**
Ceanothus

A beautiful upright growing shrub with glossy variegated green and gold leaves and a profusion of fragrant blue flowers in late spring. Evergreen.

El Dorado (P)

A spreading shrub with alternate, ovate, finely toothed, glossy, mid-green leaves up to 2cm long and bright blue flowers borne in dense conical, terminal and lateral cymes in late spring. Evergreen.

Italian Skies

A compact bushy variety suited to a sheltered position. The variegated foliage is trimmed with yellow and contrasts against the powder-blue flowers that appear in May and June. Evergreen.

Madagascar (P)

A spreading vigorous shrub with elliptic-oblong dark green leaves up to 2cm long. Profuse dark blue flowers, are borne in cymes in mid to late spring. Evergreen.

Puget Blue

A bushy shrub with finely toothed, glossy mid-green leaves up to 5cm long. Dark blue flowers are borne in profuse, open, terminal and lateral panicles in late spring and early summer. Evergreen.

Skylark

A compact growing form with a nice bushy growing habit and oblong, finely toothed, dark green leaves. Masses of deep blue flowers formed in tight clusters in late spring and early summer. Evergreen.

Southmead

A vigorous growing large shrub or small tree with big glossy ovate green leaves and large panicles of deep blue, slightly scented flowers in the spring. Evergreen.

Trewithen Blue

A vigorous shrub with glossy dark green leaves up to 5cm long, grey-hairy beneath. Profuse bright blue flowers are borne in large, rounded, terminal panicles in late spring and early summer. Evergreen.

Yankee Point

Low, spreading branches with alternate, toothed, mid-green leaves up to 4cm. Pale to dark blue flowers are formed in large terminal and lateral panicles in spring. Evergreen.

var. repens
**Ceratostigma**

Ceratostigma willmottianum

*Forest Blue (P)*

A compact plant with green leaves and an abundance of blue flowers in summer and autumn. Deciduous.

---

**Chaenomeles**

Chaenomeles

*Chaenomeles*

*Ceratostigma willmottianum*

*Sapphire Ring (P)*

A new introduction from Peter Catt at Liss Forest Nursery with the same compact habit as Forest Blue. The leaves are a golden-yellow colour and contrast well with the bright blue flowers from July. Deciduous.

---

**Ceratostigma**

Ceratostigma willmottianum

*Chenomeles*

*Madame Butterfly*

Glossy dark green leaves with exquisitely marked pink and white flowers. Deciduous.

---

**Chaenomeles**

Chaenomeles

*Chaenomeles*

*Chaenomeles speciosa*

*Geisha Girl*

Glossy green leaves with spiny branches and double apricot-peach flowers in spring. Deciduous.

---

**Chaenomeles**

Chaenomeles

*Chaenomeles speciosa*

*Moerloosei*

Glossy green leaves with spiny branches and delicate pink flowers in late spring and early summer. Deciduous.

---

**Chaenomeles**

Chaenomeles

*Chaenomeles speciosa*

*Nivalis*

Glossy green leaves with spiny branches and pure white flowers in spring. Deciduous.

---

**Chaenomeles**

Chaenomeles

*Chaenomeles speciosa*

*Yukigoten*

Glossy dark green leaves. The new growth is lime-green in colour, with spiny branches and double creamy-white flowers that have yellow anthers in the spring. Deciduous.

---

**Chaenomeles**

Chaenomeles

*Chaenomeles x superba*

*Crimson and Gold*

Glossy green leaves with spiny branches and red flowers with bright golden anthers. Deciduous.

---

**Chaenomeles**

Chaenomeles

*Chaenomeles x superba*

*Jet Trail*

Glossy green leaves with spiny branches and single, pure white flowers in spring and summer. Deciduous.
**Chaenomeles**

- **Chaenomeles x superba**
  - **Knap Hill Scarlet**
  - Glossy green leaves with spiny branches and bright red flowers in spring and summer. Deciduous.

- **Chaenomeles x superba**
  - **Lemon and Lime**
  - A small spreading shrub with spiny branches and lemon and lime coloured flowers that open from ivory-white buds in late spring and early summer. Deciduous.

- **Chaenomeles x superba**
  - **Pink Lady**
  - Glossy green leaves with spiny branches and rose-pink flowers that are darker in bud. Deciduous.

**Choisya**

- **Choisya**
  - **Goldfingers (P)**
  - Aromatic golden-yellow leaves and fragrant white flowers from late spring. Evergreen.

- **Choisya**
  - **White Dazzler (P)**
  - Aromatic dark-green leaves composed of 5-7 linear leaflets and masses of scented white flowers in the Spring and a second flush of flowers in late summer. A very dense compact shrub. Evergreen.

- **Choisya ternata**
  - **Sundance**
  - Aromatic, golden-yellow trifoliate leaves and fragrant white flowers from late spring. Evergreen.

**Cistus**

- **Choisya ternata**
  - **Silver Pink**
  - Dark green leaves that are grey-green beneath with silvery-pink flowers that are almost white. Evergreen.

- **Cistus creticus**
  - **Silver Pink**
  - Wavy-margined, deeply veined, mid-green leaves with purple-rose flowers with a yellow centre. Evergreen.
**Cistus**

Cistus x dansereau

- Decumbens
- Lance-shaped dark green leaves with sticky shoots and white flowers that have a crimson blotch at the base of each petal with yellow stamens in summer. Evergreen.

Cistus x hybridus

- (corbariensis)
- Ovate, wavy-margined, dark green leaves. Red buds open to white flowers with yellow stamens. Evergreen.

Cistus x pulverulentus

- Sunset
- Wavy-margined, greyish green leaves with rose-pink flowers with yellow stamens in summer. Evergreen.

Cistus x purpureus

- Alan Fradd
- Red-flushed shoots with narrowly ovate, wavy-margined dark green leaves. Dark pink flowers with maroon marks at the base of the petals and yellow stamens in summer. Evergreen.

Clematis

Clematis

- Kokonoe (P)
- Truly one of a kind flowers which change shape throughout the season. In summer and autumn, Kokonoe blooms abundantly with pure purple flowers which change from single flowers to pompons.
- A 2019 introduction!
Clematis Kokonoe (P)

Truly one of a kind flowers which change shape throughout the season. In summer and autumn, Kokonoe blooms abundantly with pure purple flowers which change from single flowers to pompoms.

A 2019 introduction!
**New Love (P)**

New Love has strong growth with branches that stay beautifully upright. Abundant attractive blue-purple flowers appear in summer and autumn. Dark green foliage. Deciduous.

---

**Taiga (P)**

A striking new variety with unique double purple flowers, each petal tipped in a paler shade. Flowers throughout the summer. Deciduous.
Clematis Boulevard®
Compact, middle sized plant with repeat flowering from early spring to late summer. Flowers from the leaf axils and the ends of the stems, resulting in flowers right from the ground. Ideal for growing in large patio containers.

- Full Sun to Part Shade
- Height: 100-150cm
- Spread: 50-60cm
- Flowering Time: May to September
- -32°C

Convolvulus

Convolvulus cneorum

Lance-shaped silky, silver-green leaves with funnel-shaped white flowers with yellow centres. Evergreen.

Coprosma

Inferno (P)

Glossy, vibrant foliage gives all year round interest with the variegated lime-green, pink and orange colours of spring and summer and brilliant shades of red and orange during the autumn and winter. Evergreen.

Coprosma

Pacific Dawn (P)

Compact small shrub with glossy pink-purple variegated leaves which have vivid pink margins. Requires winter protection in colder areas. Evergreen.

Coprosma

Pacific Night (P)

An excellent foliage shrub with vivid purple-brown very glossy obovate leaves in spring and early summer. Ideal for border, tub or spot planting. Requires winter protection in colder areas. Evergreen.

Coprosma

Pacific Sunset (P)

Vivid coral red in the centre, chocolate-bronze at the edge and in between there is an irregular zone in which the two shades are mixed. Most intense foliage colour is in spring and autumn. Evergreen.

Coprosma

Scarlet O’Hara (P)

A compact form with distinctive small and intensely coloured leaves which change from a light variegation to rich crimson tones in summer and a dark burgundy-black during autumn and winter. Evergreen.

Coprosma COCKTAIL

Lemon & Lime (P)

Glossy green leaves which are splashed with bright yellow that turn slightly orange-red in the tips during autumn and winter, but on the whole maintain the yellow and green colour throughout. Evergreen.

Coprosma COCKTAIL

Midnight Martini (P)

Distinctive small and glossy, intensely coloured foliage that changes during the year, from bronze with shades of green and yellow in spring to a rich black with orange and red tones in summer and autumn. Evergreen.
### Coprosma

- **Coprosma COCKTAIL**

  Early in spring the small glossy, slightly curled leaves are lime green and yellow. These turn to a bold sunset orange colour which deepens to a volcanic-burgundy during winter months. Evergreen.

- **Pina Colada (P)**

  Another striking introduction from the Native Gems breeding programme with amazing golden-hued glossy leaves, which take on a bronzy overtone during autumn and winter months. Evergreen.

- **Tequila Sunrise (P)**

  Early in spring the small glossy, slightly curled leaves are lime green and yellow. These turn to a bold sunset orange colour which deepens to a volcanic-burgundy during winter months. Evergreen.

### Cornus

- **Cornus alba**
  - **Elegantissima**
    - Red bark with green leaves that are margined and mottled white. Deciduous.
  - **Gouchaultii**
    - Red bark with green leaves that are variegated with gold and a tinge of pink. Deciduous.
  - **Sibirica**
    - Bright coral-red bark with dark green leaves and creamy-white flowers in May and June. Deciduous.

### Cotinus

- **Cornus stolonifera**
  - **Flaviramea**
    - Yellow stemmed, large leaves a soft green in summer, turning to a pale yellow in autumn. Deciduous.
  - **Dusky Maiden (P)**
    - A compact form of the Smoke Bush with undulating, small dark purple leaves which turn bright scarlet in autumn. Pink fluffy flower panicles in summer. Deciduous.
  - **Golden Spirit (P)**
    - A golden form of the Smoke Bush with translucent golden leaves and plumes of smoke-like green flowers in summer. Stunning coral, orange and red autumn colour. Deciduous.
Cotinus Royal Purple

Bushy spreading habit with feathery-pink flowers in summer. Rounded deep purple leaves which turn deep red in autumn. Deciduous.

Full Sun to Part Shade

Height: 700-800cm
Spread: 700-800cm

Flowering Time: June to September

-15°C

Bushy spreading habit with feathery-pink flowers in summer. Rounded deep purple leaves which turn deep red in autumn. Deciduous.

Full Sun to Part Shade

Height: 700-800cm
Spread: 700-800cm

Flowering Time: June to September

-15°C
### Cotinus

**Grace**
A fast growing vigorous shrub with long purple leaves which turn bright red in autumn. Deep pink feathery plumes in summer. Deciduous.

**Old Fashioned (P)**
A vigorous upright shrub with foliage that starts with dark pink new growth before turning blue green and then an eye-catching pinkish-red in autumn. Feathery yellow-green flowers in early summer. Deciduous.

**Young Lady (P)**
A rich flowering shrub suitable for the garden or growing in a container. Showy large plumes of pink flowers between May and October. Roundish green leaves that turn yellow and red in autumn. Deciduous.

### Cotoneaster

**Cotinus coggygria**
Bushy spreading habit with feathery-pink flowers in summer. Rounded deep purple leaves which turn deep red in autumn. Deciduous.

**Cotoneaster**
Glossy dark green leaves with white flowers in summer, followed by orange-red berries. Evergreen.

**Cotoneaster**
Dark green leaves with reddish brown bark, white flowers followed by bright-red berries. Semi-Evergreen.

**Cotoneaster horizontalis**
Low growing-spreading habit, with the branches forming a herringbone pattern. Rounded glossy dark green leaves that turn red in autumn. Pink tinged white flowers followed by red berries. Deciduous.

**Cotoneaster**
A prostrate form with small glossy green leaves and white flowers followed by red berries. Evergreen.

**Rothschildianus**
Narrowly elliptic pale green leaves with yellow/green bark. White flowers are produced in summer followed by abundant golden-yellow berries. Evergreen.
**Cotoneaster**

**Cotoneaster horizontalis**

Variegatus

Dark green leaves with a creamy-white margin that becomes suffused with red in autumn. Deciduous.

---

**Crinodendron**

**Crinodendron hookerianum**

Variegatus

Ada Hoffman

Long dark green leaves with crimson lantern-like flowers in summer. Evergreen.

---

**Crinodendron hookerianum**

P9/18

Long slender dark green leaves with pale-pink lantern-like flowers in summer. Evergreen.

---

**Cupressus**

**Cupressus macrocarpa**

Wilma

A neat, evergreen Conifer with a conical form and soft, bright yellow, lemon scented foliage. Good for patio containers or formal planting schemes.

---

**Cytisus**

**Cytisus**

Boskoop Ruby

Mid-green palmate leaves with deep crimson-red flowers in May and June. Deciduous.

---

**Cytisus**

Burkwoodii

Mid-green palmate leaves with dark pink flowers that have yellow-margined crimson wings. Deciduous.

---

**Cytisus**

Golden Cascade

Mid-green palmate leaves with golden-yellow flowers in May. Deciduous.
Cytisus

- **Goldfinch**
  - Mid-green palmate leaves with crimson and yellow flowers in May.
  - Deciduous.

- **La Coquette**
  - Mid-green palmate leaves with rose-red flowers that are yellow inside with orange-yellow wings.
  - Deciduous.

- **Lena**
  - Mid-green palmate leaves with dark yellow flowers with red backs and wings in May and June.
  - Deciduous.

- **Cytisus x praecox**
  - Mid-green palmate leaves with creamy-yellow flowers in May.
  - Deciduous.

- **Allgold**
  - Mid-green palmate leaves with long lasting golden-yellow flowers in May.
  - Deciduous.

- **Eternal Fragrance (P)**
  - Compact shrub with dark green leaves. Produces highly fragrant tubular pink flushed flowers from April to October. Highly desirable, fantastic premium impulse purchase plant.
  - Semi-Evergreen.

Daphne

- **Aureomarginata**
  - Mid green leaves with yellow margins and sweetly scented, pale pink flowers in January. Plant in a sheltered position.
  - Evergreen.

- **Perfume Princess (P)**
  - A medium sized shrub with pale green, lanceolate leaves and fragrant mid-pink flowers that fade to white and appear as clusters along the entirety of all stems.
  - Evergreen.
Daphne Perfume Princess (P)
A medium sized shrub with pale green, lanceolate leaves and fragrant mid-pink flowers that fade to white and appear as clusters along the entirety of all stems. Evergreen.
Deutzia Raspberry Sundae (P)

A vigorous, upright growing shrub with large, ovate, mid-green leaves. In May/June the branches are covered with masses of star-shaped purple-pink flowers with yellow anthers.
Deutzia

**Deutzia x hybrida**

*Magicien*

Large mauve-pink flowers that are edged white and tinted purple on the reverse. Deciduous.

*Deutzia x hybrida*

*Mont Rose*

Ovate green leaves with purplish-pink flowers in early summer. Deciduous.

*Deutzia x hybrida*

*Pink Pompon*

Green leaves with double flowers that are pink at first and then become white in early summer. Deciduous.

**Diervilla**

*Deutzia x hybrida*

*Raspberry Sundae (P)*

A vigorous, upright growing shrub with large, ovate, mid-green leaves. In May/June the branches are covered with masses of star-shaped purple-pink flowers with yellow anthers.

**Elaeagnus**

*Elaeagnus x ebbingei*

*Compacta*

A more compact smaller form of Elaeagnus ebbingei. Evergreen.

**Elaeagnus**

*Elaeagnus x ebbingei*

*Honeybee (P)*

A showy low maintenance shrub with golden foliage throughout the summer when planted in full sun. Yellow flowers appear in early summer which are attractive to bees and butterflies. Deciduous.

**Escallonia**

*Elaeagnus x ebbingei*

*Apple Blossom*

Dark green leaves. Pink and white flowers, in short leafy racemes from early summer. Evergreen.

**Escallonia**

*Elaeagnus x ebbingei*

*Crimson Spire*

Large, dark glistening green leaves with bright-crimson flowers in early summer. Evergreen.
**Escallonia**

**Donard Radiance**

Large, glossy, rounded leaves with rose-red flowers in racemes in early and mid-summer. Evergreen.

**Donard Seedling**

Glossy dark green leaves with blush-white flowers, opening in early summer from pink buds. Evergreen.

**Gold Ellen**

Large, glossy yellow leaves with green splashes and clusters of rose-pink flowers in summer. Evergreen.

**Glowing Embers (P)**

A new compact golden-foliaged variety suitable for the front of a border. When growth is trimmed back, particularly in spring, the new shoots are a glowing orange-red colour. Evergreen.

**Iveyi**

Glossy green leaves with large panicles of white flowers in late summer and early autumn. Evergreen.

**Golden Carpet (P)**

A low growing variety with golden-yellow leaves which turn lime-green and small red flowers. Evergreen.

**Peach Blossom**

Glossy dark green leaves with peach-pink flowers, in short leafy racemes from early summer. Evergreen.

Harlequin
Euonymus fortunei
Small leaves are heavily speckled pure white and light green. Young growth is pure white. Evergreen.

Sunshine
Euonymus fortunei
A larger leaved form than Emerald Gold with showy, bright golden leaves with a central green blotch. Evergreen.

Silver Queen
Euonymus fortunei
Dark green, ovate leaves margined with white, the new growth is creamy yellow. Evergreen.

Bravo
Euonymus japonicus
Long lance-shaped leaves, dark green in the centre with irregular creamy-white margins. Evergreen.

Green Millennium (P)
Euonymus japonicus
Densely branched shrub with dark glossy green leaves. Suitable for planting in sun or shade and excellent for coastal planting. Evergreen.

Green Rocket
Euonymus japonicus
An upright growing plant with very glossy dark green leaves and a neat, compact growing habit. Ideal planted as a single specimen or planted en-masse as an alternative hedge. Evergreen.

Green Spire
Euonymus japonicus
A narrow upright growing plant with dense, glossy dark green leaves. Ideal as a columnar specimen or planted as hedging. Suitable for coastal planting. Evergreen.

Kathy (P)
Euonymus fortunei
A densely compact growing form with large oval dark green leaves which have a bright white border around the edge. Excellent for growing in tubs or planting in the border for impact. Evergreen.

</table>
**Halimiocistus**

**Halimiocistus sahucii**

A dwarf shrub with narrow dark green leaves and pure white flowers with yellow stamens. Evergreen.

**Halimum**

**Halimum calycinum**

A dwarf shrub with slender deep-green leaves and masses of vivid yellow flowers in summer. Evergreen.

**Hebe**

**Hebe**

A bushy compact shrub with variegated leaves that have a central green midrib and irregular lime-green margin which has shades of pink over the winter. Profuse burgundy flowers in early summer. Evergreen.

**Hebe albicans**

A small shrub with oblong, blue-grey leaves which are margined with red, especially in winter. Pale mauve flowers that fade to white are formed in short spikes during summer. Evergreen.
**Hebe**

**Hebe pinguifolia**
- Pagei
- A low-growing dwarf shrub with small, oblong, glaucous silvery-grey leaves and small white flowers that are formed on dense, short spikes in late spring and early summer. Evergreen.

**Hebe rakaiensis**
- Tricolor
- A compact growing shrub with small pale green leaves and white flowers in early summer. Evergreen.

**Hebe speciosa**
- A bushy shrub with broad glossy grey-green leaves and irregular cream and pink margins. Reddish pink flowers in summer. Evergreen.

**Hedera**

**Hedera canariensis**
- Gloire de Marango
- Large dark green and grey-green leaves margined with creamy-white and red stems. Evergreen.

**Hedera colchica**
- Dentata Variegata
- Large leaves with a broad creamy-white margin which is yellowy-cream on young leaves. Evergreen.

**Hedera colchica**
- Sulphur Heart
- Broadly ovate dark green leaves with a central splash of yellow and yellow-green. Evergreen.

**Hedera helix**
- Glacier
- Shallowly-lobed silvery-grey leaves with a narrow irregular white margin. Evergreen.

**Hedera helix**
- Goldchild
- Light green leaves with a pale green centre which are broadly margined with bright yellow. Evergreen.

**Hedera helix**
- Goldheart
- Dark green leaves with a striking central splash of golden-yellow. Evergreen.
Hedera, Hydrangea

**Hedera helix**
- **Green Ripple**
  - Vivid green leaves with pale green veins, ideal for ground cover or covering walls and banks. Evergreen.

**Hydrangea**
- **Confetti (P)**
  - Compact upright habit with light airy scented flowerheads which open white in July and August taking on pink tones as they mature. Deciduous.

**Hydrangea aborescens**
- **Annabelle**
  - Dark green leaves with enormous flower heads which are made up of masses of individual creamy white bracts from mid to late summer and resemble giant white snowballs. Deciduous.

**Hydrangea macrophylla**
- **Blue Wave**
  - Broadly ovate green leaves with rich-blue to mauve lacecap flowers in mid to late summer if grown in acid conditions. In alkaline soil they will be pink. Deciduous.

**Hydrangea macrophylla**
- **Forever (P)**
  - A compact mophead flowering variety with double florets that open light green colour before turning a delicate pink. In acid conditions the florets will be blue. Deciduous.

**Hydrangea macrophylla**
- **King George**
  - Broadly ovate green leaves with rose-pink mophead flowers in mid to late summer. In acid conditions the flowers will be blue. Deciduous.

**Hydrangea macrophylla**
- **La France**
  - Broadly ovate green leaves with phlox-pink mophead flowers in mid to late summer. Deciduous.

**Hydrangea macrophylla**
- **Madame Emile Mouillère**
  - Green leaves with white mophead flowers with pink eyes in mid to late summer. Deciduous.
Hydrangea Forever (P)
A compact mophead flowering variety with double florets that open a light green colour before turning a delicate pink. In acid conditions the florets will be blue. Deciduous.

Part Shade
Height: 90-100cm
Spread: 130-150cm
Flowering Time: June to August

-15°C
**Hydrangea macrophylla**

**Miss Saori (P)**

Won the 2014 Chelsea Flower Show Plant of the Year, this variety is quite beautiful with bronze-green foliage and fully double white blooms with a soft rose-pink edge. Deciduous.

**Peppermint (P)**

This long flowering compact variety has beautiful two-toned pink and white flowers, when grown in alkaline soil, that open in June. In acid conditions the florets will be blue. Deciduous.

**Preziosa**

Ovate green leaves which are purple-tinged when young and purplish-red stems, large rose-pink flowers that deepen to a reddish-purple in autumn. Deciduous.

**Sabrina (P)**

A beautiful variety with very delicate white lacecap flowers which are edged rose-red and show off well against the deep purple-bronze foliage. Deciduous.

**Salsa (P)**

Large mophead flowers with flushed pale-pinkish white blooms which turn a darker pink and then a hot crimson colour towards the edges. Deep purple-bronze foliage. Deciduous.

**Sandra (P)**

Large bi-coloured lacecap flowers which are white and tinged red at the edges. Purple-bronze foliage. Deciduous.

**Selina (P)**

A compact growing plant with attractive deep purple-bronze foliage which contrasts well with the dainty pink-red lacecap flowers during the summer. Deciduous.

**Sharona (P)**

Large mophead flowers with rich pink petals that have creamy-white centres to them and give a fantastic display of colour when in full bloom and contrast very well with the rich deep-green leaves. Deciduous.
## Hydrangea

### Hydrangea macrophylla

**Sindarella (P)**

A strong growing variety with huge soft-pink mophead flowers which are made up of large florets and serrated petals with blushed white edges. Deciduous.

**Teller Blue**

Ovate green leaves with masses of blue lacecap flowers in summer when grown in acid soil. In alkaline conditions the flowers will be pink. Deciduous.

**Teller Pink**

Ovate green leaves with masses of pink lacecap flowers in the summer. Deciduous.

**Teller Red**

Ovate green leaves with masses of red lacecap flowers in the summer. Deciduous.

**Teller White**

Ovate green leaves with masses of white lacecap flowers in the summer. Deciduous.

**Together (P)**

Large flowered mophead with sturdy stems. Double flowers open light green in early summer before turning pink and maturing to a rich-red in autumn in alkaline soils. In acid soils the blooms can be blue. Deciduous.

### Hydrangea paniculata

**Zorro (P)**

A neat compact growing habit with unusual black stems that contrast well against lush green leaves. Pale blue lacecap flowers during summer if grown in acid soil, otherwise they will be pink. Deciduous.

**Baby Lace (P)**

A new compact and free-flowering variety with equally compact creamy-white flowers, contrasting with dark green foliage. Deciduous.

**Grandiflora**

Green leaves and panicles of cream florets which become pink-tinged with age in summer. Deciduous.
<table>
<thead>
<tr>
<th>Varietal Name</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hydrangea paniculata Kyushu</td>
<td>Ovate green leaves with large panicles of pure-white flowers in late summer. Deciduous.</td>
</tr>
<tr>
<td>Hydrangea paniculata Limelight (P)</td>
<td>A vigorous tall and spreading shrub with greenish-yellow leaves. Broad cone-shaped flowers start entirely green before opening to a pale-green colour and finally changing to white in July. Deciduous.</td>
</tr>
<tr>
<td>Hydrangea paniculata Little Lime (P)</td>
<td>A beautiful compact variety with strong stems that support conical lime green flowers which fade to cream then blush pink. Deciduous.</td>
</tr>
<tr>
<td>Hydrangea paniculata Phantom</td>
<td>A vigorous shrub with the largest flowerhead of any variety in the species which starts pale-green before turning white from July to August and finally pink in September. Deciduous.</td>
</tr>
<tr>
<td>Hydrangea paniculata Pink Diamond</td>
<td>Ovate green leaves with pyramidal panicles of creamy-white flowers which are produced in late summer and change colour to pale-pink and then deep-rose before finally turning crimson. Deciduous.</td>
</tr>
<tr>
<td>Hydrangea paniculata Silver Dollar</td>
<td>A moderately spreading variety with strong stems that support large, conical-shaped flowers in late summer. These change from light green to pure white before changing to light pink in early autumn. Deciduous.</td>
</tr>
</tbody>

</table>
**Ilex**

**Ilex aquifolium**
- Handsworth New Silver
  - Deep green foliage mottled grey with a broad creamy white margin held on purple stems. Female form has bright red berries. Evergreen.
- J.C. van Tol
  - Glossy dark green leaves, small white flowers and large red berries. Can be male and female. Evergreen.
- Madame Briot
  - A purple stemmed form with green leaves, margined dark yellow with spines all along the edge. Small white flowers followed by bright red berries. A female form. Evergreen.

**Ilex x altaclerensis**
- Golden King
  - Broad ovate, slightly spiny green leaves that are margined with bright yellow and small white flowers followed by red berries. A female form. Evergreen.
- Lawsoniana
  - Large spineless glossy green leaves splashed with yellow centres. A female form. Evergreen.
- Henry's Garnet
  - Green leaves with masses of fragrant Hebe-like flowers during summer. Good autumn colour. Evergreen.

**Itea**

**Itea virginica**
- Henry's Garnet
  - Green leaves with masses of fragrant Hebe-like flowers during summer. Good autumn colour. Evergreen.

**Jacobinia**

**Jacobinia pauciflora**
- An eye-catching tender plant suitable for container planting or a sheltered position in southern areas. Profuse multi-coloured tubular flowers in late winter/early spring. Evergreen.

**Jasminum**

**Jasminum nudiflorum**
- Small green trifoliate leaves on long arching branches with bright yellow flowers in winter and spring. Deciduous.

**Jasminum officinale**
- Pinnate green leaves with clusters of very fragrant white flowers in summer. Deciduous.

**Shrubs**

**Lavandula angustifolia**

- **Arctic Snow**
  - T84
  - A compact variety with grey-green leaves. Bears dense spikes of white, fragrant flowers from late summer onwards which contrast with the foliage. Evergreen.

- **Blue Scent**
  - T84
  - Compact, clump-forming variety with evergreen leaves that are narrower and greener than other Lavenders. Early flowering with violet-blue flowers on long stalks from June. Evergreen.

- **Hidcote**
  - T84
  - Slender aromatic, silvery-grey leaves with large, lilac-coloured, fragrant flower spikes in summer. Evergreen.

- **Melissa Lilac (P)**
  - T84
  - Compact shrub with narrow, grey-green foliage and spikes of small, highly-fragrant, blue-purple flowers in mid to late summer. Evergreen.

- **Munstead**
  - T84
  - Compact, clump-forming variety with evergreen leaves that are narrower and greener than other Lavenders. Early flowering with violet-blue flowers on long stalks from June. Evergreen.
### Lavandula

</tbody>
</table>
Lavatera x clementii

Barnsley

Lobed, grey-green leaves with very pale pink (nearly white) flowers that have a red eye. Semi-Evergreen.

Barnsley Baby

Lavatera x clementii

Burgundy Wine

Lobed, grey-green leaves with deep purplish-red flowers during summer and autumn. Semi-Evergreen.

Mary Hope

Lobed, grey-green leaves with white flowers that have a distinctive red eye. Semi-Evergreen.

Red Rum (P)

Lobed sage-green leaves with reddish-pink flowers on dark red stems during summer and autumn. Deciduous.

Lavatera x clementii

Rosea

Lobed, grey-green leaves with pale pink flowers during summer and autumn. Semi-Evergreen.

Ruby Star (P)

A lovely compact garden plant with sage-green leaves that contrast with the deep pink flowers that hold closely together. Semi-evergreen.

Songbird (P)

A fast growing plant with upright stems and open habit with soft grey-green leaves. Pure white tissue paper, hollyhock-like flowers which age to pink, creating a bi-coloured effect. Semi-evergreen.
## Leucothoe

<table>
<thead>
<tr>
<th>Variety</th>
<th>Description</th>

### Luma

**Luma apiculata**

*Glanilearn Gold*

Glossy green, elliptic leaves that are margined with cream and tinged pink when young. Small white flowers in late summer and autumn. Evergreen.

### Magnolia

**Magnolia x loebneri**

*Leonard Messel*

A small, rounded tree or large shrub. From mid spring the bare branches are covered in rose-pink star-shaped flowers with long, narrow petals. Deciduous.

### Mahonia

**Magnolia x soulangeana**

Large, spined, leathery pinnate green leaves with small, fragrant light yellow flowers in spreading or ascending sprays from late autumn to early spring, followed by blue-black berries. Evergreen.

**Mahonia japonica**

Large, spined, leathery pinnate green leaves with small, fragrant light yellow flowers, in shorter sprays than japonica, from late autumn to early spring, followed by blue-black berries. Evergreen.

**Mahonia japonica**

*Bealei*

A large growing variety with large, tulip-shaped white flowers, stained rose-purple at the base, which appear in late March/April before the leaves. Deciduous.
Mahonia

Mahonia x media

Charity

Large, spiny pinnate green leaves formed on upright stems. Deep yellow, slightly fragrant flowers formed in long spreading racemes during autumn and winter, followed by blue-black berries. Evergreen.

Lionel Fortescue

Large, spiny pinnate green leaves formed in clustered upright racemes, followed by blue-black berries. Evergreen.

Winter Sun

Large, spiny pinnate green leaves formed on upright stems. Deep yellow slightly fragrant flowers that are formed in long densely packed upright racemes during autumn and winter. Evergreen.

Myrtus

Myrtus tarentina

Small dense shrub with narrow ovate leaves and pink flower buds that open white in August. Followed by white berries. Evergreen.

Nandina

Nandina Sensation

Obsessed (P)

Compact shrub with fiery red new growth during spring and summer before maturing to a rich green. Conical white flowers in summer. Evergreen.

Twilight (P)

Compact variegated shrub which creates a spectacular effect with pink new growth in spring followed by foliage in shades of bronze, green and white which becomes more intense in winter. Evergreen.
Nandina Obsessed (P)

Compact shrub with fiery red new growth during spring and summer before maturing to a rich green. Conical white flowers in summer. Evergreen.

- Full Sun to Part Shade
- Height: 120cm
- Spread: 60cm
- Flowering Time: n/a
- -10°C
Osmanthus

Osmanthus heterophyllus

Goshiki
Spiny green leaves that are conspicuously mottled with yellow. Small white fragrant flowers. Evergreen.

Osmanthus heterophyllus

Variegatus
Spiny, ovate green leaves that are boldly edged creamy-white. Small white fragrant flowers. Evergreen.

Osmanthus x burkwoodii

Dark glossy green leaves with clusters of small, highly-scented white flowers in late spring. Evergreen.

Pachysandra

Pachysandra terminalis

Green Carpet
Dark green coarsely toothed leaves with erect spikes of small white flowers in early summer. Evergreen.

Pachysandra terminalis

Variegata
Good for ground cover in shady areas. Forms an attractive carpet of green leaves edged creamy white. Clusters of white flowers in spring. Evergreen.

Parahebe

Parahebe

Avalanche (P)
Dwarf ground covering shrub with dark green serrated leaves. White flowers with rose-pink eyes cover the plant during the summer and late into autumn. Evergreen.

Parthenocissus

Parthenocissus henryana

Dark green divided leaves tinged bronze with silvery veins which turn red in autumn. Deciduous.

Parthenocissus quinquefolia

The ‘Virginia Creeper’. A vigorous climber with five-lobed, dull green leaves in the summer, before turning brilliant scarlet in autumn. Deciduous.

Passiflora

Passiflora

Snow Queen (P)
Hardy free-flowering variety with healthy mid-green foliage. Large perfumed flowers with pure white petals and filaments from June to October. Semi-Evergreen.
Passiflora Snow Queen (P)
Hardy free-flowering variety with healthy mid-green foliage. Large perfumed flowers with pure white petals and filaments from June to October. Semi-Evergreen.

**Passiflora**

**Passiflora caerulea**
Green leaves with a blue flower that is white in the middle and purple at the base. Orange-yellow fruits from mid-summer onwards. Semi-evergreen.

**Constance Elliott**
A vigorous climber with deeply lobed leaves and star-shaped white flowers from July onwards. Egg-shape orange fruit in autumn. Semi-evergreen.

**Damsel's Delight (P)**
Fast growing, free-flowering variety with large healthy dark green foliage. Striking large flowers with dark purple filaments skirt over white and lilac petals. Semi-evergreen.

**Perovskia**

**Perovskia atriplicifolia**
Deeply divided aromatic greyish leaves. Small violet-blue flowers in mid summer and autumn. Deciduous.

**Blue Spire**
A compact variety growing up to 50cm tall with small violet-blue flowers from mid summer. Deciduous.

**Lacey Blue (P)**
A compact plant with small silver-jade fern-like leaves and stiff spear like branches of violet-blue flowers from mid-summer. Deciduous.

**Silvery Blue (P)**

**Philadelphus**

**Philadelphus**
Dark green leaves with highly scented single white flowers which are tinged purple in the centre. Deciduous.

**Belle Etoile**
Green leaves with a creamy-white variegation and fragrant, single white flowers in summer. Deciduous.

**Innocence**
Small dark green leaves. Fragrant double creamy-white flowers in small clusters in summer. Deciduous.

**Manteau d’Hermine**
### Philadelphus

<td>Bright red young foliage, becoming green, boldly marginated silvery-white. Small creamy-white bell shaped flowers formed in panicles in spring. Evergreen.</td>
</tr>
<tr>
<td>Little Heath</td>
<td>Green leaves with a creamy-white margin. Young growth is flushed with pink. White flowers. Evergreen.</td>
</tr>
</tbody>
</table>
**Pieris japonica**

- **Mountain Fire**
- Green leaves with bright red young growth that ages to a chestnut brown colour. White flowers. Evergreen.

- **Passion (P)**
- Glossy green leaves with a neat, compact, growing habit and racemes of cerise-red flowers which will not fade in colour. Ideal as a container plant for the patio or a show plant in the border. Evergreen.

**Pittosporum eugenioides**

- **Variegatum**
- Large green oval-oblong leaves with creamy-white margins. Evergreen.

**Pittosporum tenuifolium**

- **Arundel Green**
- Large bright green oval-oblong leaves and black stems. Evergreen.

- **Beach Ball (P)**
- A very bushy, compact slow growing variety with shiny small glossy green leaves. Ideal as a specimen plant or planting as a low hedge. Evergreen.

- **Collaig Silver**
- A vigorous upright growing plant with large oval leaves that are variegated silvery-white. Found as a sport of ‘Golden King’ at Collaig Nursery in Scotland. Evergreen.

Pittosporum Silver Ball (P)
An eye catching sport of Golf Ball, with small olive green leaves with creamy-white margins set off against black stems. Ideal as a specimen plant or planted as a low hedge. Evergreen.

- Full Sun to Part Shade
- Height: 100-120cm
- Spread: 100-120cm
- Flowering Time: n/a
- -10°C
**Pittosporum**

**Pittosporum tenuifolium**

*Oliver Twist*

Compact, neat bushy shrub with small shiny bright green leaves set off against black stems. Evergreen.

*Silver Ball (P)*

An eye catching sport of Golf Ball, with small olive green leaves with creamy-white margins set off against black stems. Ideal as a specimen plant or planted as a low hedge. Evergreen.

*Silver Queen*

Large oval glossy green leaves with a white variegation. Compact growing shrub. Evergreen.

*Tom Thumb*

Dwarf shrub with a dense rounded habit. Leaves are green when young before turning deep reddish-purple. Evergreen.

*Variegatum*

A compact, bushy form with small variegated cream and green leaves which become white and green with age. Evergreen.

*Wrinkled Blue*

Silvery-blue wavy edged foliage. A good plant with a tidy habit and vigour. Evergreen.

**Potentilla**

**Potentilla fruticosa**

*Abbotswood*

Small dark green leaves with five leaflets. White flowers over a long season from late spring. Deciduous.

*Daydawn*

Small green leaves with five leaflets and peach-pink suffused with cream flowers. Deciduous.

*Goldfinger*

Small blue-green leaves with five leaflets and rich golden-yellow flowers from late spring. Deciduous.
Potentilla

**Goldstar**
Small green leaves with five leaflets and large deep-yellow flowers from late spring. Deciduous.

**Hopleys Orange**
Small green leaves with five leaflets and orange-red flowers. A compact low growing variety. Deciduous.

**Limelight**
Green leaves with five leaflets and pale yellow flowers with a lime green centre from late spring. Deciduous.

**Lovely Pink (P)**
Small green leaves with five leaflets and semi-double clear pink flowers from late spring. Deciduous.

**Mango Tango (P)**
Green leaves with five leaflets and yellow flowers with orange hearts. Good bicolour variety. Deciduous.

**Medicine Wheel Mountain**
Small green leaves with five leaflets and large slightly crumpled bright yellow flowers. Deciduous.

**Primrose Beauty**
Grey-green leaves with five leaflets and primrose yellow flowers with a darker centre. Deciduous.

**Princess**
Green leaves with five leaflets and pale pink flowers with yellow centres from early summer. Deciduous.

**Red Ace**
Green leaves with five leaflets and bright orange-red flowers with a cream reverse in summer. Deciduous.
Potentilla

Potentilla fruticosa

Red Robin
Small green leaves with five leaflets and deep brick-red flowers from early summer. Deciduous.

Potentilla fruticosa

Tangerine
Small green leaves with five leaflets and pale coppery-yellow flowers from late spring. Deciduous.

Potentilla fruticosa

Tilford Cream
Small green leaves with five leaflets and large creamy-white flowers from late spring. Deciduous.

Prostanthera

Prostanthera cuneata
A small evergreen shrub with tiny, aromatic, glossy rounded leaves. Cup-shaped white/lilac flowers in late spring. Evergreen.

Prostanthera Prunus

Prunus

Prunus laurocerasus
Variegated form of the common Laurel with large green and grey-green leaves marbled white. Evergreen.

Prunus

Prunus

Prunus incisa
A dwarf shrub with unusual contorted branches which are covered in masses of blush-pink flowers from March, and replaced by attractive green serrated leaves. Excellent autumn colour. Deciduous.

Prunus

Prunus

Prunus kurilensis
A compact, upright shrub with coarsely-toothed dark green leaves. Large showy white or pink-tinged flowers in April before the leaves arrive. Deciduous.

Prunus

Prunus laurocerasus

Brilliant

Marbled White
Variegated form of the common Laurel with large green and grey-green leaves marbled white. Evergreen.
**Prunus**

- **Prunus laurocerasus**
  - A tall growing, spreading plant with large, leathery, shiny green leaves. Terminal racemes of small white flowers in April/May. Evergreen.

**Pyracantha**

- **Golden Charmer**
  - Glossy leaves with white flowers from late spring onwards and orange-yellow berries. Evergreen.

- **Golden Paradise (P)**
  - Spring foliage is flushed with red before fading to a yellow-lime colour with red tints reappearing in the autumn and winter. White flowers in spring are followed by orange-red berries in autumn. Evergreen.

- **Mohave**
  - Glossy silvery-green leaves with white flowers in late spring onwards and bright red berries. Evergreen.

- **Orange Glow**
  - Glossy green leaves with white flowers in late spring and early summer and orange berries. Evergreen.

- **Red Column**
  - Glossy green leaves with white flowers in late spring and early summer and red berries. Evergreen.

- **Cadaune (P)**
  - Narrow glossy green leaves and sprays of white flowers in late spring and early summer, followed by masses of small bright orange berries in autumn. Compact growing habit. Evergreen.

- **Cadange (P)**
  - Dark green leaves and sprays of white flowers in late spring followed by masses of bright yellow berries in autumn. Disease resistant. Evergreen.
Shrubs

**Pyracantha**

*Pyracantha SAPHYR*

Cadrou (P)

Narrow glossy green leaves and sprays of white flowers in late spring and early summer, followed by masses of small bright orange-red berries in autumn. Compact growing habit. Evergreen.

**Rhododendron**

*Rhododendron*

*Ramapo*

Glossy dark green leaves with red trumpet-shaped flowers with a wavy margin in late spring. Evergreen.

*Golden Wonder*

Small glossy dark green leaves with pale golden-yellow trumpet-shaped flowers. Evergreen.

*Scarlet Wonder*

Glossy dark green leaves with red trumpet-shaped flowers with a wavy margin in late spring. Evergreen.

*Snipe*

A compact free-flowering variety with pale pink flowers tinged with lavender. Evergreen.

*Shamrock*

Glossy dark green leaves with yellow-green buds opening to creamy-yellow flowers. Evergreen.
Rose Courtyard®

Shorter, patio climbing roses with double or semi-double flowers. Antique look and fragrance with flowers all the way up from the base of the plant. All varieties are extremely healthy and hardy. Ideal for pots or beds.

- **Farucca™**
  - Height: 150cm
  - Spread: 60cm
  - Flowering Time: June to October

- **Eisa™**
  - Height: 150cm
  - Spread: 60cm
  - Flowering Time: June to October

- **Haka™**
  - Height: 150cm
  - Spread: 60cm
  - Flowering Time: June to October

  - Height: 150cm
  - Spread: 60cm
  - Flowering Time: June to October

- **Redova™**
  - Height: 150cm
  - Spread: 60cm
  - Flowering Time: June to October
Rose Parade®

Rich flowering, low and compact growing outdoor roses with large, full-petalled blooms and healthy lush leaves. Several varieties have fragrance. Suitable for growing in pots in a conservatory, on the patio or in small patio beds.

- **Full Sun**
- **Height**: 30cm
- **Spread**: 30cm
- **Flowering Time**: June to October
- **Temperature**: -10°C

**Rose Parade®**

Rich flowering, low and compact growing outdoor roses with large, full-petalled blooms and healthy lush leaves. Several varieties have fragrance. Suitable for growing in pots in a conservatory, on the patio or in small patio beds.
**Rose PatioHit®**

Compact and bushy plants with large, well-formed buds and full petalled flowers. Flower continuously from early summer until the first frost. Many of the varieties have fragrance. The leaves are dark green and very robust. Ideal for large pots on the patio.

- **Height:** 40cm
- **Spread:** 40cm
- **Flowering Time:** June to October
- **Temperature:** -10°C
- **Sun Requirement:** Full Sun
- **Moderate Water Demand:**

Rosmarinus

**Rosmarinus officinalis**

**Green Ginger**

Dense shrub with small linear green leaves, with white beneath. Like most Rosmarinus, the foliage is aromatic but with a ginger scent. Small striking dark blue flowers are produced in clusters in spring. Evergreen.

**Miss Jessop's Upright**

Vigorous upright habit with dark green aromatic leaves. Spikes of purple-blue flowers from mid-spring to early summer. Evergreen.

**Roman Beauty (P)**

Dense, bushy and compact with attractive greenish grey aromatic leaves and super blue to bluish violet flowers in late spring and early summer. Evergreen.

**Roseus**

Neat and upright habit with bright green aromatic foliage and pink flowers produced in clusters throughout spring. Evergreen.

**Sissinghurst Blue**

Upright habit with narrow aromatic dark green leaves. Produces dark blue flowers from spring into summer. Evergreen.

**Tuscan Blue**

A dense growing form with an upright habit. Long flowering season with erect stems studded with deep blue flowers from late spring until autumn. Evergreen.

**Whitewater Silver (P)**

Provides year-round interest. Forms a dense, low-spreading mound of aromatic green foliage which has a white-woolly underneath that gives the plant a distinctive silvery sheen. Blue flowers contrast against the foliage during spring and intermittently throughout the summer. Evergreen.

Price includes a 10p donation to the charity Perennial
**Salix**

**Salix integra**

Oblong bright green leaves with pink and white variegation in the new growth, on red stems. Deciduous.

**Hakuro-nishiki**

**Sambucus**

Elegant narrow upright growth with deeply dissected bright golden yellow leaves which glisten in the sun. White clusters of flower appear in summer. Deciduous.

**Golden Tower (P)**

**Sambucus**

Colourful dissected maple-shaped leaves emerge in shades of pink, red and brown. Light pink flowers in May and June are followed by blue-black fruit in autumn. Deciduous.

**Serenade (P)**

**Sambucus nigra**

Deep burgundy-black foliage from spring to autumn with dark red flower buds that open to flat heads of small pinkish-purple flowers in early summer followed by purple-black berries. Deciduous.

**Black Beauty (P)**

**Sambucus nigra**

Deep burgundy-black dissected foliage from spring to autumn with creamy-pink flower buds that open to flat heads of small creamy-pink flowers in summer followed by purple-black berries. Deciduous.

**Black Lace (P)**

**Sarcococca hookeriana**

Profuse, fragrant, small creamy-white flowers in late winter which have distinctive pink anthers. Dense suckering habit and large ovate-lanceolate dark green leaves. Evergreen.

**Winter Gem (P)**

**Sarcococca confusa**

Glossy green leaves with very fragrant creamy-white flowers followed by black berries. Evergreen.

**Sarcococca**

**Sarcococca confusa**

**Senecio**

**Senecio**

Soft, downy, flamboyant foliage, Angel Wings has a truly striking appearance. Great for pots, beds and borders, as a stand alone plant or in combination planting. Excellent winter hardiness.

**Angel Wings (P)**

**Senecio**
Senecio Angel Wings (P)

Soft, downy, flamboyant foliage, Angel Wings has a truly striking appearance. Great for pots, beds and borders, as a stand alone plant or in combination planting. Excellent winter hardiness.
### Solanum

<table>
<thead>
<tr>
<th>Species</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Solanum crispum</td>
<td>Mid-green leaves. Lilac-purple flowers with yellow stamens in summer. Semi-Evergreen.</td>
</tr>
<tr>
<td>Solanum jasminoides</td>
<td>Glossy green leaves. Pure white flowers with yellow stamens in summer. Semi-Evergreen.</td>
</tr>
<tr>
<td>Sorbaria sorbifolia</td>
<td>A compact, dwarf growing variety with green leaves which are bronze when young. Spikes of white flowers are formed during the summer followed by reddish autumn foliage. Deciduous.</td>
</tr>
</tbody>
</table>

### Spiraea

<table>
<thead>

</tbody>
</table>
Spiraea

Spiraea japonica

Goldmound
Narrowly lanceolate to ovate golden-yellow leaves and pink flowers. Nice compact habit. Deciduous.

Little Princess
Narrowly lanceolate to ovate green leaves with crimson-rose flowers in summer. Deciduous.

Shirobana
Narrowly lanceolate to ovate green leaves with domed clusters of deep pink and white flowers on the same flower heads in summer. Deciduous.

Spiraea japonica

White Gold (P)
Narrowly lanceolate golden-yellow leaves with domed clusters of white flowers in summer. Deciduous.

Snowmound
Small green leaves with clusters of small white flowers on arching branches in summer. Deciduous.

Gold Fountain
Leaves obovate to rhombodial, golden-green fading to green with white flowers in summer. Deciduous.

Syringa

Syringa

Pink Ice
Narrowly lanceolate to ovate young leaves with pink stems as they unfold, change to a green and white variegation with clusters of white flowers in the summer. Deciduous.

Bloomerang® Dark Purple (P)
An attractive rounded shrub. Large dark purple buds in mid to late spring open to a highly-scented, deep purple-lilac colour. As the name suggests, it 'keeps coming back' and blooms again in summer through to autumn. Deciduous.
Syringa Red Pixie

Slow growing compact Lilac with small neat foliage. Abundant panicles of fragrant pink flowers open from red buds in early to midsummer, creating a vibrant blast of colour. Deciduous.

Full Sun

</table>

Elliptic deep green leathery leaves with three central veins. Flattened heads of small dull white flowers followed by metallic blue-black berries during winter on fertile plants. Evergreen.
**Viburnum**

*Viburnum farreri*

Prominently veined oval leaves which are coppery when young. Clusters of fragrant white flowers opening from pink buds in autumn through to spring. Deciduous.

*Viburnum opulus*

A large shrub with mid-green leaves which take on vibrant red tints in the autumn. Large compact clusters of white flowers are produced in late spring and early summer. Deciduous.

*Viburnum plicatum*

Dark green leaves which turn purple in autumn with large lacecap heads of white flowers in late spring. Deciduous.

*Viburnum tinus*

- **Eve Price**
  
  Broadly oval glossy dark green leaves with carmine flower buds that open to pink-tinged white flowers in winter and spring. A compact form. Evergreen.

- **French White EM27**
  
  Broadly oval glossy dark green leaves with large heads of white flowers from winter. Evergreen.

- **Gwenllian**
  
  Compact variety with neat, dark green leaves. Produces profuse clusters of deep pink buds opening to blush flowers from December to April, followed by dark blue berries. Evergreen.

- **Lisa Rose (P)**
  
  Compact, bushy shrub with dark red flower buds in late autumn which open to small pink and white flowers from November to March. Evergreen.

- **Purpureum**
  
  Broadly oval glossy very dark green leaves that are tinged purple when young with large heads of white flowers from winter to spring. Evergreen.

- **Spirit (P)**
  
  Compact long flowering variety with pink buds opening to light scented white flowers from November to April. Blue-black berries in autumn. Evergreen.
### Viburnum

---

**Viburnum**

**Viburnum tinus**

Medium sized variety with dark, glossy green leaves. Pink flower buds open white from late autumn to early spring and are followed by metallic blue berries. Evergreen.

**Viburnum x bodnantense**

Dense clusters of heavily scented bright pink flowers on bare stems from November to March and toothed, dark green leaves. An upright growing shrub. Deciduous.

**Viburnum x bodnantense**

Dark green ovate leaves and clusters of fragrant light pink and white flowers opening from red buds in autumn to spring on bare branches. Deciduous.

---

**Vinca**

**Vinca major**

Vigorous evergreen sub-shrub or herbaceous perennial with arching shoots. Large ovate dark green leaves. Dark violet flowers from spring to early autumn. Evergreen.

**Vinca minor**

Low growing sub-shrub or herbaceous perennial with small paired ovate green leaves and pale lavender-blue lobed flowers from spring to early autumn. Evergreen.

**Vinca minor**

Low growing sub-shrub or herbaceous perennial with small paired ovate green leaves and single white lobed flowers from spring to early autumn. Evergreen.
**Vinca**

- **Vinca minor**
  - Argenteo-variegata
  - Low growing sub-shrub or herbaceous perennial with small paired ovate green leaves margined with cream and violet-blue lobed flowers from spring to early autumn. Evergreen.

- **Vinca minor**
  - Atropurpurea
  - Low growing sub-shrub or herbaceous perennial with small paired ovate green leaves and reddish purple lobed flowers from spring to early autumn. Evergreen.

- **Vinca minor**
  - Bowles Variety
  - Low growing sub-shrub or herbaceous perennial with small paired ovate green leaves and bright blue lobed flowers from spring to early autumn. Evergreen.

**Weigela**

- **Vinca minor**
  - Illumination
  - Particularly striking, effective ground covering shrub producing gold splashed foliage with a dark green surround, paired with cobalt-blue flowers virtually continuously from April until October. Evergreen.

- **Vinca minor**
  - Ralph Shugert
  - Low growing sub-shrub or herbaceous perennial with small paired ovate dark green leaves with a narrow white border. Very floriferous with vivid deep violet flowers from spring to early autumn. Evergreen.

- **Weigela**
  - All Summer Red (P)
  - Compact shrub which is covered in flower from early summer to mid autumn. Red funnel-shaped flowers with contrasting white pistils and stamens make an eye catching effect. Deciduous.

- **Weigela**
  - Kosteriana Variegata
  - Green leaves with an ivory-yellow margin and deep pinkish-red flowers. Deciduous.

- **Weigela**
  - Pink Poppet (P)
  - Ovate mid-green leaves with clusters of funnel-shaped bright pink flowers in early summer. Deciduous.

- **Weigela**
  - Red Prince
  - Ovate mid-green leaves with clusters of funnel-shaped red flowers in early summer. Deciduous.
Weigela

**Rubidor**

Ovate golden-yellow leaves with clusters of funnel-shaped red flowers in early summer. Deciduous.

**Weigela florida**

**Alexandra (Wine & Roses) (P)**

Ovate purplish-green leaves with clusters of funnel-shaped pinkish-red flowers in early summer. Deciduous.

**Black & White (P)**

An interesting new variety with dark green leaves that turn a deep plum colour during late spring. These contrast well with the pure white trumpet-shaped flowers during May and June. Deciduous.

**Foliis Purpureis**

Ovate purplish-green leaves with clusters of funnel-shaped rosy-pink flowers in early summer. Deciduous.

**Magical Rainbow (P)**

A compact variety. Beautiful green and yellow variegated foliage flushed pink-red which becomes more intense from late summer. Trumpet-shaped pink flowers in May. Deciduous.

**Variegata**

Green leaves that are edged creamy-white with clusters of funnel-shaped light pink flowers. Deciduous.
